Chapter Description (November 22, 2006)

### **IV. 18. TRED as an Educational Tool (Shields, Leatherman, Deller)**

In this chapter the authors outline a community educational program where the TRED analysis serves as a catalyst. Based on the authors' experience in designing and delivering educational programs within a university extension setting one potential educational program is outlined. Using tools from community visioning and economic development strategic planning a method for using the TRED analysis as an educational tool is developed.

This chapter is based on three papers already published by the authors and include:
